

ADDRESSES: Written comments should be submitted to: Superintendent, Olympic National Park, 600 East Park Avenue, Port Angeles, WA 93362.

The first public meeting will be at the Jackson Federal Building, 915 Second Avenue, Seattle, Washington, from 7:00 p.m. to 10:00 p.m. on Wednesday, 3 May 1995, in the 4th Floor North Auditorium (enter the building from First Avenue). The second meeting will be at the Vern Burton Community Center, 308 East Fourth Street, Port Angeles, Washington, from 7:00 p.m. to 10:00 p.m. on Thursday, 4 May 1995.

Public reading copies of the DEIS will be available for review at the following locations:

Office of Public Affairs, National Park Service, 1849 C. St., NW., Washington, D.C.
 Pacific Northwest Regional Office, National Park Service, 909 First Avenue, Seattle, Washington
 Alaska Regional Office, National Park Service, 2525 Gambell St., Anchorage, Alaska
 Mid-Atlantic Regional Office, National Park Service, 143 South Third St., Philadelphia, Pennsylvania
 Midwest Regional Office, National Park Service, 1709 Jackson St., Omaha, Nebraska
 North Atlantic Regional Office, National Park Service, 15 State St., Boston, Massachusetts
 Rocky Mountain Regional Office, National Park Service, 12795 West Alameda Parkway, Denver, Colorado
 Southeast Regional Office, National Park Service, 75 Spring St., SW., Atlanta, Georgia
 Southwest Regional Office, National Park Service, 1100 Old Santa Fe Trail, Santa Fe, New Mexico
 Western Regional Office, National Park Service, 600 Harrison St., Suite 600, San Francisco, California
 Olympic National Forest Headquarters, U.S. Forest Service, 1835 Black Lake Blvd., SW., Olympia, Washington
 Pacific Northwest Regional Office, U.S. Forest Service, 333 SW 1st Ave., Portland, Oregon

A limited number of copies of the DEIS are available on request from the Superintendent, Olympic National Park, at the above address.

SUPPLEMENTARY INFORMATION: Mountain goats are not native to Washington's Olympic Peninsula, but were introduced there in the 1920's apparently to develop a population for hunting. Olympic National Park was established in 1938 and hunting was subsequently prohibited on park lands. The introduced goat population grew in size and dispersed throughout suitable

areas of the peninsula, with most concentrating within the National Park. By 1983, the goat population on the peninsula was estimated to be approximately $1,175 \pm 171$ (Standard Error). During the 1980's, Olympic National Park staff conducted experimental and operational management programs to reduce goat populations using translocation and reproductive control methods. A census conducted in 1990 documented a population of 389 ± 106 (Standard Error). Results from an additional census in 1994 showed no statistical difference from the 1990 results. The non-native goats are causing significant impacts to native ecosystem processes and components within Olympic National Park. Documented goat impacts on vegetation include changes in dominance and competitive relationships between plant species which alter the relative abundance of species in native communities. Goats directly and indirectly alter plant communities through changes in plant structure, reproductive patterns, growth rates, and seedling establishment. Threats to 33 known rare and/or endemic plant taxa from goat trampling, wallowing, and grazing include risks to individual plants, subpopulations, and populations. The Olympic Mt. milkvetch (*Astragalus australis* var. *olympicus*) is proposed for listing by the U.S. Fish and Wildlife Service as threatened or endangered and is listed as threatened by the Washington Natural Heritage Program. The world's entire known population of this species contains only 3,800-4,000 plants, all of which are within goat habitat of the Olympic Mountains. Soil impacts from goats include wallows and trailing.

The Draft Environmental Impact Statement describes and analyzes three alternatives for future management of mountain goats within Olympic National Park. Alternative 1 (the proposed action) is the National Park Service's preferred alternative. This alternative proposes elimination of mountain goats from the park by shooting from helicopters. Ecosystem impacts from goats would cease in approximately three years. Alternative 2 (the no-action alternative) identifies no active management of the park's mountain goats, other than monitoring. The goat population would likely increase to approximately 1,400 animals and impacts to native ecosystems would increase dramatically. Alternative 3 is similar to Alternative 1 except that it allows for a short-term, live-capture program before elimination by shooting.

Ecosystem impacts from goats would cease in approximately four years.

Dated: March 10, 1995.

William C. Walters,

Acting Regional Director, Pacific Northwest Region, National Park Service.

BILLING CODE 4310-70-M

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337-TA-365]

Decision Not To Review an Initial Determination Finding a Violation of Section 337 and Schedule for the Filing of Written Submissions on Remedy, the Public Interest, and Bonding

In the Matter of: Certain Audible Alarm Devices for Divers.

AGENCY: International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has determined not to review the initial determination (ID) issued on February 2, 1995, by the presiding administrative law judge (ALJ) in the above-captioned investigation finding a violation of section 337 in the importation and sale of certain audible alarm devices for divers.

FOR FURTHER INFORMATION CONTACT: Rhonda M. Hughes, Esq., Office of the General Counsel, U.S. International Trade Commission, telephone 202-205-3083. Copies of the nonconfidential version of the ID and all other nonconfidential documents filed in connection with this investigation are or will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S.

International Trade Commission, 500 E Street S.W., Washington, D.C. 20436, telephone 202-205-3000. Hearing-impaired persons are advised that information on the matter can be obtained by contacting the Commission's TDD terminal on 202-205-1810.

SUPPLEMENTARY INFORMATION: On June 8, 1994, the Commission instituted an investigation of a complaint filed by David A. Hancock and Ideations Design Inc. under section 337 of the Tariff Act of 1930. The complaint alleged that Duton Industry Co., Ltd. (Duton) of Taipei, Taiwan and IHK International Corp. (IHK) of Torrance, California had imported, sold for importation, and sold within the United States after importation certain audible alarm devices for divers by reason of infringement of claim 6 of U.S. Letters Patent 4,950,107 (the '107 patent) and claim 1 of U.S. Letters Patent 5,106,236 (the '236 patent). The Commission's notice of investigation named as respondents Duton and IHK, each of which was alleged to have committed one or more unfair acts in the importation or sale of audible alarm devices for divers that infringe the asserted patent claims.

The ALJ conducted an evidentiary hearing commencing on October 11, 1994, and issued her final ID on February 2, 1995. She found that: (1) claim 6 of the '107 patent and claim 1 of the '236 patent are valid and enforceable; (2) there is a domestic industry manufacturing and selling products protected by these two claims; (3) respondent IHK has imported products that infringe claim 6 of the '107 patent and claim 1 of the '236 patent, and respondent Duton has exported to the United States products that infringe claim 6 of the '107 patent and claim 1 of the '236 patent. Based upon her findings of validity, infringement, and domestic industry, the ALJ concluded that there was a violation of section 337.

No petitions for review of the ID were filed and, consequently, no responses thereto were filed. No government comments on the ID were received by the Commission.

In connection with final disposition of this investigation, the Commission may issue (1) an order that could result in the exclusion of the subject articles from entry into the United States, and/or (2) cease and desist orders that could result in respondents being required to cease and desist from engaging in unfair acts in the importation and sale of such articles. Accordingly, the Commission is interested in receiving written
